PLASTIC VENTILATION GRILLES

By using IMCO3V's plastic ventilation grilles, indoor air is expelled, leaving your space clean, free of odors and harmful particles. At the same time, the entry of insects and rodents is prevented. Last but not least, the movable leaves (fins) prevent water from entering.

Isolation of ventilation pipes from outer environment

Suitable for diameters $\Phi 100$ & $\Phi 125$

Resistant to time, they do not discolor
